Summary

Full-Stack and Flutter Developer with hands-on experience building and shipping mobile and web features across React, Node.js, Express, and MongoDB. Built real-time collaborative applications using WebSockets and Socket.IO, integrated AI APIs and payment workflows, and contributed to live products during internships. Focused on end-to-end feature development, debugging, and reliable user experiences.

Skills

Languages:	JavaScript, TypeScript, Dart, Python, Java
Frontend & Mobile:	React.js, Next.js, Flutter, HTML, CSS, TipTap
Backend & Real-Time:	Node.js, Express.js, REST APIs, WebSockets, Socket.IO
Databases:	MongoDB, MySQL, PostgreSQL
Authentication & Payments:	JWT, bcrypt, Google OAuth 2.0, Stripe
AI Integrations:	Google Gemini API
Tools & Deployment:	Git, GitHub, Vercel, Render

Experience

Full Stack Development Intern (MERN) Jun 2026 – Aug 2026
NIELIT Lucknow (MeitY, Govt. of India) *Lucknow, India*

- Completed 90-hour industrial training and earned an S grade (80%+); built REST APIs with Node.js/Express and React interfaces using components, props and state, backed by MongoDB and MySQL.

Full Stack Developer Intern Dec 2025 – Mar 2026
PanScience Innovations LLP *Lucknow, India (On-site)*

- Shipped Flutter features for Android and iOS across live products, including Botza and OwnChat, by extending existing web functionality to mobile.
- Built Steno AI features for audio recording, speech-to-text transcription, and AI-powered transcript summarization.
- Developed frontend and backend features across MERN applications, integrating REST APIs into end-to-end product workflows.
- Debugged application issues, fixed bugs, and improved error handling across product features.
- Collaborated through GitHub, pull requests, and code reviews to deliver and maintain product changes.

Artificial Intelligence Intern Jun 2025 – Aug 2025
NIELIT Lucknow (MeitY, Govt. of India) *Lucknow, India*

- Completed 90-hour internship with an S grade (80%+); built Python/Tkinter apps and worked on speech recognition, data analysis (NumPy, Pandas, Matplotlib) and ML/DL/NLP fundamentals.

Projects

SlaySheet | Real-Time Collaborative Document Editor | GitHub | Live Demo
React, TipTap, Node.js, Express, Socket.IO, MongoDB, Gemini AI

- Built a collaborative document editor with real-time editing, remote cursors, selections, and room-based user presence using Socket.IO.
- Implemented document revision history with author attribution, playback controls, and rollback functionality backed by MongoDB.
- Integrated a Gemini AI writing assistant for summarization, grammar correction, tone improvement, and outline generation.
- Implemented JWT/bcrypt authentication and team workspaces (deployed on Vercel).

HireMind AI | AI-Powered Recruitment Platform | GitHub | Live Demo
React, TypeScript, Node.js, Express, MongoDB, Gemini AI

- Developed a recruitment platform that parses resumes and generates AI-assisted job-fit assessments.
- Built recruiter workflows for candidate ranking, fit analysis, and Kanban-based application tracking.
- Integrated JWT authentication, Google OAuth 2.0, and AI-powered interview preparation and cover-letter generation (deployed on Vercel).

ZingBite | Full-Stack Food Delivery Platform | GitHub | Customer | Admin
React, Node.js, Express, MongoDB, Stripe

- Developed customer-facing ordering and restaurant administration interfaces backed by REST APIs.
- Implemented JWT authentication, persistent shopping carts, menu management, and order-status workflows.
- Integrated Stripe checkout with server-side payment verification (deployed on Render).

Education

Bachelor of Computer Applications (BCA) 2024 – 2027
Shri Ramswaroop Memorial College of Management, Lucknow

Class XII – Rani Laxmi Bai School, Lucknow CBSE, 2022

Certifications

Industrial Training in Full Stack Development using MERN – NIELIT Lucknow (2026) | Internship in Artificial Intelligence – NIELIT Lucknow (2025)
